

**Jon Jensen** serves as Sustainability Director for MaGrann Associates and Technical Consultant to developers and architects, interested in high performance multifamily projects. He expertly guides clients through various

programs including: PHius+, LEED BD+C Homes and Multifamily Midrise, Enterprise Green Communities, the National Green Building Standard and ENERGY STAR certification programs.

Jon is an industry thought leader and has facilitated hundreds of client meetings and presentations, both regionally and internationally, helping projects meet their ESG goals. He has a formidable reputation as a subject matter expert, adult educator and effective collaborator.

## Professional Experience

Jon has overseen the certification of over 10,000 LEED homes. With over 12 years of experience, he oversees the team of Green Raters' verification practices for LEED for Homes at MaGrann and has executed over 100 presentations to project teams and professional audiences regarding energy efficient and green building practices.

- ♦ Consults with project teams of developers, architects, sustainability consultants, builders and subcontractors seeking LEED for Homes certification
- ♦ Delivers custom training modules to organizations looking to communicate the benefits of living in certified green homes to potential homeowners.
- ♦ Works with project teams and production builders through their initial pursuit of NAHB Green Building Standard certification
- ♦ Utilizes facilitation experience of diverse groups to lead effective meetings focused on maximum building performance within project constraints
- ♦ Mentors staff on program requirements as well as clear, focused communication with developers, design professionals and builders.
- ♦ Trains construction teams on effective quality management on site in order to minimize inspection costs and corrective measures.

- ♦ Manages LEED projects for effective achievement of project team goals within consulting budgets.
- ♦ Conducted site visits to gather information about large existing multifamily buildings.
- ♦ Presenter: Greenbuild: Boston 2017, Brasil 2014, Philadelphia 2013; New Gravity Housing 2020; 2018; Tri-state Sustainability Symposium 2018, Construction Specifiers International, Lehigh Valley 2018, Appraisers Institute of NJ (2017, 2018) East Coast Green 2011
